

DETERGENT Compliance Solution

Legislation on detergents covers the manufacturing, sale and use of detergents. All those responsible for placing a detergent or a surfactant for a detergent on the market must comply with global regulations and standards.

In the EU, an amended Detergents Regulation, Regulation (EC) No 648/2004, went into effect as of June 2013. Annex VII of this document describes provisions for the labeling that applies to the packaging of detergents sold to the general public: ingredients must be listed on the Ingredient Label (IL) as well as on the Ingredient Data Sheet (IDS).

Lisam Systems is connected to Detergent Industry Associations:

- The International Fragrance Association (IFRA); IFRA North America
- International Association for Soaps, Detergents and Maintenance - Products (AISE)
- Nederlandse Vereniging van Zeepfabrikanten (NVZ)
- DETIC

Lisam's solution automates production of ingredient labels (IL) and data sheets (IDS). Global compliance for detergents is easier than ever before.

DETERGENT Compliance Solution

ExESS® Detergents Module

The ExESS solution offers a specialized module for the detergents industry that readily integrates the regulatory lists, report templates and certificates that have been established by the major detergents industry associations in the EU.

ExESS can generate Ingredient Labels as well as Ingredient Data Sheets, while leveraging the most recent NVZ regulatory data.

Ingredient Data can also be uploaded from the NVZ list, which makes producing the documentation for detergents – and remaining in compliance with Regulation (EC) No 648/2004, Annex VII – a much simpler process.

Features and Functionality:

- Generates regulatory documentation such as Ingredient Data Sheets and Ingredient Labels
- Performs product and raw material batch tracking with QC Analysis and Inventory Tracking
- Multi-source basis for labeling: NVZ database, CAS number, GHS information, INCI name, Ingredient Type
- Integrates with the NVZ database
- List of allergens, identified by the EU SCCS

Main Reports/Views:

- Specific Ingredient Label (IL) layouts
- Allergens report
- Ingredient Data Sheets (IDS)
- Ingredient Labels
- Medical Data Sheets
- Consumer Data Sheets

Substances Databases:

- NVZ list of substances
- INCI list
- IFRA substances database
- CosIng
- Other ExESS substance databases

Detergent product Clean-it-up
Datasheet for medical personnel, according to Annex VII, C

1.1. Product Identifier
Product form : Mixture
Name : Detergent product Clean-it-up

2. Manufacturer
Detergents Ltd
Main Street

ABOUT Lisam Systems

Lisam Systems is an established international provider of Environmental Health and Safety (EH&S) compliance management software solutions and services. Our flexible, user-friendly and cost-effective solution empowers over 800 clients and EH&S teams worldwide to reduce their costs, improve processes, and minimize the risk of non-compliance with global regulations, such as GHS and REACH.

Our enterprise-wide solution, ExESS[®], creates, manages and distributes GHS-compliant safety data sheets (SDS) and labels for all major commercial markets. It leverages fully integrated regulatory and transportation content libraries and can generate output in nearly 50 languages. Specialized vertical compliance modules are also seamlessly integrated within ExESS, offering an automated solution and access to industry-specific regulatory information.
